

The HRCTD’s Board established the bylaws with the intent that the Committee would assist the District in defining high poverty areas. After an assessment of the census data on poverty – as well as a general overview of potential mobility overlay factors, the committee voted to recommended to the Board that the STIF plan define “communities with a high percentage of low-income households” (a.k.a High Poverty areas) as:

Census block groups within the County that have 30% or more of households with an income level that is 200% or less of the federal poverty standards.

By adopting the STIF plan, the HRCTD Board of Directors, amends the Committee bylaws to include this definition of “communities with a high percentage of low-income households” (a.k.a High Poverty areas) into the STIF Plan.

The specific census block groups and census defined places that are included in the definition can be found in the table and map below
